

UMBRELLA NERIDA

The large one: measuring 4.0 x 4.0 metres in size in the square version and with a 5m diameter in the round version, Nerida puts everything else in shade if used on terraces, hotel lawns and beer gardens. The weather-resistant protect cover comes in natural, lemon, beige, aqua, red, red orange, salt & pepper and lilac. The anodised aluminium pole is also extremely weather-resistant. The robust and durable sunshade provides UV protection up to SPF 80 in line with UV Standard 801. The cover can be removed and washed. The one-handed pulley system makes it easy to use. A frame stand made of powder-coated steel and with four granite slabs (40 x 40 cm, 35 kg) is available to match the sunshade.
