ARMCHAIR EZARO

The distinctive perforated back design provides a modern look, good ventilation, and allows rainwater to drain quickly. The chair is made of glass-fiber reinforced polypropylene, making it very stable, dimensionally resistant, and durable – ideal for terraces, beer gardens, cafés, or restaurants. The surrounding backrest is ergonomically shaped and offers high seating comfort. The slightly inclined seat surface supports a comfortable, relaxed sitting position, even during longer stays. After use, the chairs can be stacked to save space and quickly stowed away – perfect when flexible seating is required.

- dimensionally stable glass-fiber reinforced frame
- ergonomically shaped surrounding backrest
- stackable
